PROFILE

Aspiring DevOps engineer with a strong foundation in cloud services, automation, and containerization. Passionate about building scalable infrastructure, streamlining deployment pipelines, and applying modern DevOps practices. Eager to contribute to real-world projects, collaborate in teams, and continuously learn emerging technologies.

EDUCATION

•Bachelor of Engineering in Electronics and Communication

Sohag University College of Engineering, Sohag

Grade: Very Good

Expected Graduation: 2026

PERSONAL PROJECTS

•Ansible Multi-Server Deployment Project

Designed and implemented infrastructure automation using Ansible.

- Developed two reusable roles to automate Nginx setup and database configuration.
- Used Ansible Vault for securing sensitive credentials.
- Structured the project with inventories, group variables, and site playbooks for scalability and clarity.
- Published the project on GitHub and Ansible Galaxy, making roles reusable by the community.
- Tech Stack: Ansible, Nginx, MySQL, Linux

•Multi-Service Docker Application

Designed and deployed a multi-container application using Docker and Docker Compose.

- Configured Nginx as a reverse proxy to route traffic between frontend and backend services.
- Developed a Flask backend API integrated with PostgreSQL to persist page visit counters.
- Implemented multi-network isolation and persistent storage using Docker volumes.
- Tech Stack: Docker, Flask, PostgreSQL, Nginx

CERTIFICATES

–AWS Cloud Practitioner

AWS Educate

Aug 2025

Online

–Linux Administration

ITI

Mar 2025

Offline

–Windows Server

ITI

Dec 2024

Offline

–CCNA (Routing & Switching)

NTI

Sep 2023

Offline

TECHNICAL SKILLS

–**DevOps Tools:** Docker, Kubernetes, Git, GitHub, GitLab, Jenkins, Ansible, Terraform

–**Cloud Platforms:** Microsoft Azure, AWS

–**Programming:** Python, Bash, YAML

–**CI/CD:** GitHub Actions, GitLab CI, Jenkins Pipelines

–**Monitoring & Logs:** Prometheus, Grafana

–**Networking:** Linux Networking, Nginx, Load Balancing, Reverse Proxy

–**Soft Skills:** Problem-Solving, Team Collaboration, Communication, Time Management
